## Additional Information

The calendar information in the ChapMobile App is updated from CM/ECF data in approximately 10-minute intervals. The transaction must be completed in CM/ECF and included in an interval update before the change is depicted in the app. As such, the information may not always be a true "real-time" depiction.

The ChapMobile App was developed by the U. S. Bankruptcy Court for the District of Utah and is designed to work with participating courts. Additional information, including short instructional videos, may be found on the Utah Bankruptcy Court's [ChapMobile webpage](#) or that court's [YouTube Channel](#).
